

Construction Update

Rendering of Bykota Senior Center exterior improvements coming Summer 2025

Have you been watching our progress?

The Bykota Senior Center construction project is in full swing! We are excited for this new modern look which will provide up to date ADA specifications for accessibility, and covered seating for our guests and members to enjoy the great outdoors. See *rendering above*.

Our renovation on the 1st floor restrooms has begun. When completed we will have 2 bright airy family style/wheelchair navigable single restrooms, as well as the more traditional multi-stall men's and women's rooms. During this time additional restrooms are available on both the 2nd floor and outside near the end of Central Ave.

Our fitness center and billiards/ping pong rooms have had the floors repaired and will soon be ready to accept participants once again. We have missed seeing many of you, and we thank the other Baltimore County senior centers for welcoming our members during this time. We appreciate everyone's patience and can't wait to get back to exercise and play.

Temporary restrooms located outside CountyRide entrance

Gentle Reminder: Our parking lot is very busy and your safety is our top priority. Please slow down, refrain from driving in the wrong direction (arrows are painted between the rows), park head-in only, and remember your green parking hang tags. Baltimore County can and will ticket those without hang tags. Additionally, please do not park behind the building and pay attention to all posted signs before leaving your car.
